**LUS HIGHLIGHTED BY DELL TECHNOLOGIES FOR STRENGTHENING CYBER
RESILIENCE IN MISSION-CRITICAL SITUATIONS**

LAFAYETTE, LA– Lafayette Utilities System (LUS) has been highlighted in a Customer Story by Dell Technologies for LUS’s work in strengthening cyber resilience in mission-critical situations.

LUS sought to strengthen its data protection and cyber resiliency to minimize disruption from natural disasters and outages, while proactively securing customer information and infrastructure data against cyber threats. LUS integrated Dell data protection portfolio – including PowerProtect Data Manager and PowerProtect Cyber Recovery – to prepare for and recover from any unforeseen threats by ensuring critical data remains safe and quickly recoverable.

Dell data protection portfolio allows LUS to enhance cyber resiliency by delivering intelligent data protection that enables proactive threat protection from natural disasters and cyberattacks.
