Lafayette Utilities System Issues a Boil Water Advisory Notification

LAFAYETTE, LA– Lafayette Utilities System (LUS) has issued a Boil Water Advisory for residents and businesses in the areas south of Cameron Street, west of Saint John Street, north of Saint Landry Street, and east of Brookside Drive.

Customers in the affected area need to vigorously boil their water for at least one (1) full minute prior to drinking, making ice, brushing their teeth, using it for food prep, or rinsing food. The one-minute starts after water has been brought to a rolling boil.

To see if your home or business is in the affected area, please visit LUS's Outage & Events Map at https://www.lus.org/map/.

To ensure water safety and quality, the advisory will remain in effect until water pressure is normalized and collected water samples are cleared by the Louisiana Department of Health-Office of Public Health.

LUS Mission Statement: As a publicly owned utilities system, we provide high-quality, competitively priced services that exceed our customers' expectations and contribute to the Consolidated Government to support other community needs.
