LAFAYETTE UTILITIES SYSTEM | 2024 POWER LINE SAFETY CARD

Safety around high-voltage power lines is a crucial. It's also the law.

Louisiana Law prohibits any unauthorized persons from working, including moving equipment, within ten feet of any high-voltage overhead line.

If any unauthorized person intends to work within ten feet of any high-voltage overhead line, the person responsible for the work must notify the owner or operator of the high-voltage overhead line not less than 48 hours prior to commencing work.

Work shall be performed only after satisfactory mutual arrangements have been completed between the owner or operator of the high-voltage overhead line and the person responsible for the work to be done.

LUS reminds you to work safely around overhead or downed power lines.

LUS
LAFAYETTE UTILITIES SYSTEM

LUS reminds you to please work safely around all power lines.

- **NO** using tools near a high-voltage overhead line!
- **NO** using any type of heavy equipment that could make contact overhead lines!
- **NO** playing near, or hang objects on high-voltage overhead lines!
- **NO** trimming a tree branch that could make contact with an overhead line!
- **NO** touching, picking up or moving a fallen high-voltage overhead line!

Touching or attempting to move a high-voltage power line can be deadly!
